

## ECO R- POLY-55

New generation polymeric fat liquor for extremely soft leathers based on a complex blend of specially selected esters.

### PROPERTIES

<b>Appearance</b>	:	Transparent yellowish liquid.
<b>Chemical nature</b>	:	Polymers and Sulphited Synthetic Esters.
<b>Active contents (%)</b>	:	80 ± 2.
<b>pH (1:10)</b>	:	7.0± 0.5
<b>Ionic nature</b>	:	Anionic
<b>Stability</b>	:	Excellent
<b>Light fastness</b>	:	Excellent
<b>Sensitivity to frost</b>	:	Keep away from freezing
<b>Shelf life</b>	:	180 days, keep in cool place.

### APPLICATION

**ECO R- POLY-55** is synthetic fat liquor having a blend of a special polymers and sulphited ester, specially meant for gloving leather where extra softness and surface feel required.

It confers extra fullness, its penetrating power is very good as it enters through the whole cross section and lubricates the fibers well giving excellent softness and roundness to treated leather.

It can be safely used in the production of light colored leathers.

**Emulsion Instruction:** To the required quantity of **ECO R- POLY-55** add slowly three times of its own weight of water at 60°C.

**Remark :** The product may show separation on prolonged storage or under extremes of temperature. However this can be rectified in most cases by mixing thoroughly by stirring before use. Under normal conditions the product has shelf life, in the unopened original container of approximately six months to 1 year.

The product complies with the presence of any banned substances as stated in regulation laid by REACH.
